Rain jacket for work and leisure.  
 The product is waterproof and breathable.  
 Elastic lightweight fabric for maximum comfort.  
 Features: waterproof, windproof jacket.  
 Fabric: Lightweight elastic polyester covered on the inside with breathable film and extra lining.  
 Water repellent, wind resistant, breathable fabric.  
 NANO Dry membrane - does not allow moisture to enter the inside of the garment, but allows the body to "breathe" by evaporating water vapor to the outside.  
 Seams: The main seams are double and welded.  
 Ventilation: Armpit areas have zippers for better body cooling.  
 Collar: Raised collar with zipper all the way to the top. Chin protection.  
 Hood: spacious, adjustable size hood.  
 Pockets: the pockets are zipped.  
 Two pockets in the waist area, a pocket in the chest area, two inside pockets.  
 Cuffs: sticker adjustable cuffs .  
 Moisture resistance from the outside: 5000mm  
 Moisture evaporation from the inside: 3000g / m2 in 24 hours.
